Am I on Track for College?
Look for the green, yellow, or red symbols next to your section scores. They let you know if your scores meet or exceed the benchmark scores, demonstrate above college readiness, if you are green, you can track to be ready for college when you graduate.
If you score below the benchmark, you can use the feedback and tips in your online report to get back on track.

Benchmark scores
Benchmark: Read: Benchmark Writing: 470
Math: 520

How Do My Scores Compare?
A percentile shows how you scored compared to other students. It's a number between 1 and 99 and represents the percentage of students whose scores are equal to or below yours.
For example, if your Math score is 520, that means 57% of test takers have SAT scores equal to or below yours.
The Nationally Representative Sample Percentile compares your score to the scores of typical U.S. students.
SAT User Percentile compares your score to the scores of students who typically take the test.

How Can I Improve?
To see which skills are your strongest and what you can do to boost your college readiness, go to your full report online and use the Skills Insight™.

What Are Score Ranges?
SAT scores are single numbers in 10s—if you took the SAT once a year for 5 months, your scores would not vary. This is why score ranges are better representations of your true ability. They show how much your score can change with repeated testing, even if your ability remains the same.
Colleges know this, and they get score ranges along with scores so they can compare scores in context.
Your entire score range is shown in your score ranges.
