

**Announcement from Faculty of Engineering, Chulalongkorn University**  
**The selection of and the switch in sub-major**  
**for students in Nano Engineering international program**

The Faculty of Engineering, Chulalongkorn University, according to the meeting resolution of the faculty board has announced the following regulation for the selection and the switch in sub-major of students in Bachelor Engineering Program in Nano Engineering.

*1. Principle*

The selection and the switch of student's sub-major (Bioengineering or Advanced materials engineering) should be based on the following principles.

- 1.1. The needs in engineering fields should be sufficient for the development of the country.
- 1.2. The status of each sub-major should be effective in providing effective learning.
- 1.3. Student's determination, skill, interest and capability to learn.

*2. How the initial selection and the switch of the sub-major should be conducted.*

- 2.1. Selection of sub-major: At the end of the second academic year, all students in Nano Engineering Program (Curriculum 2017) should make the selection of sub-major at the International School of Engineering within the announced deadline.
- 2.2. The selection of the sub-major must be approved by the student's academic advisor and the Nano Engineering curriculum management committee.
- 2.3. Switch of sub-major: After the selection of the sub-major and having been assigned to the sub-major for at least one semester, students shall make only one request to switch the sub-major. The request must be submitted to International School of Engineering within the announced deadline.

2.4. The request to switch the sub-major must be approved by the student's academic advisor and the Nano Engineering curriculum management committee. The student is also required to take an interview from a committee assigned by the curriculum management committee.

3. *Consideration*

3.1. The number of the students in each sub-major depends on judgement of the curriculum management committee.

3.2. The consideration will be done based on cumulative grade point (GPX) and result from the interview.

3.3. After the consideration, the curriculum committee will submit the results for the approval by the dean.
