

STARTUP SCREENING CRITERIAS

Sage Corps is a global entrepreneurship program that sends top college students to intern in 15 cities on 5 continents with tech startups. All startups are vetted by sage corps to ensure student has a productive internship experience.

SCREENING CRITERIAS

Startups are chosen based on:

- Team/employees – their previous work experience, expertise, etc.
- Track record – most are pre-series A, but have received some funding. Growing fast and are poised for long-term success.
- Focus area – typically with a social mission. We want our interns to experience a sense of how their work can be impactful for the good of the world.

LIST OF SOME STARTUPS WE HAVE WORKED WITH

1. [msqu.io](#) - a blockchain platform that helps build more secure distributed ledger networks for banks
2. [realitybyteschicago.com](#) - immersive tech agency that builds Augmented Reality (AR), Virtual Reality (VR), and 3d experiences for education, entertainment, and enterprise clients.
3. [schoolio.co](#) - edtech platform that uses AI and machine learning to help schools in developing countries improve student outcomes
4. [Qooley.com](#) - mobile app that uses AI to connect travelers with experiences offered by locals
5. [traknprotect.com](#) - inventory tracking IoT (Internet of things) device and now a panic button device for hotel employees
6. [gochanged.com](#) - fintech mobile app that rounds up your online purchases and uses those funds to pay off student loans; they were on Shark Tank and won a deal with famous investor Mark Cuban
