Director of the International School of Engineering

Announcement from Faculty of Engineering, Chulalongkorn University

The switch in major for students in international programs

The Faculty of Engineering, Chulalongkorn University, according to the meeting resolution of the faculty board No. 5/2014 on May 14, 2014, has announced the following regulation for the switch in major of students in international programs so that the students can learn according to their interest, skill and capability.

1. Principles

The switch in student's major should be based on the following principles.

- 1.1 The needs in engineering fields should be sufficient for the development of the country.
- 1.2 The status of each curriculum should be effective in providing effective learning.
- 1.3 Student's determination, skill, interest and capability to learn.

2. How the switching should be conducted.

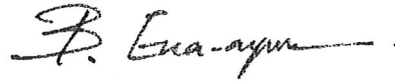

- 2.1 The student who wants to switch his/her major should submit the request at the International School of Engineering within the announced deadline. Eligible students are the students who have taken classes in the Faculty of Engineering for at least 2 semesters.
- 2.2 The request must be approved by the student's academic advisor and the curriculum managing committee of the original major. The student is also required to take an interview from a committee assigned from the curriculum managing committee of the major that the student intends to switch to.

3. Consideration

- 3.1 The number of the students that each major can take depends on judgment of the curriculum managing committee.
- 3.2 The consideration will be done based on cumulative grade point (GPX) and result from the interview.
- 3.3 The committee who will consider the switching of the major is consisted of the vice dean in academic affair or the registrar, heads of the curriculum managing committee of the involving majors, and deputy director of the International School of Engineering in academic affair. After the consideration, the committee will submit the results for the approval by the dean. All involving majors and the faculty board will also be notified.

4. This announcement is effective for the switch in major on the second semester so that the students whose requests are approved can start their new major on the first semester of academic year 2014.
